PROFESSIONAL SUMMARY

Aspiring Associate System Engineer with strong skills in Python, SQL, and SDLC. Completed an AI/ML internship involving model development, testing, and deployment. Strong in problem-solving, debugging, and collaborative development. Seeking an entry-level role at Software Consulting Company as a software developer to contribute end-to-end software development.

TECHNICAL SKILLS

Languages: Python, HTML, CSS
Concepts: OOP, SDLC, Debugging
Tools: Git, VS Code, Jupyter/Colab, Roboflow
Databases: MySQL
Softskills: Problem Solving, Team Work, Analytical Skills

WORK EXPERIENCE

- **AI/ML Intern** — SmartBridge & APSCHE May 2025 – July 2025
 - Participated in the full Software Development Lifecycle including requirement analysis, model development, testing, and deployment.
 - Designed, developed, and optimized machine learning models following structured SDLC practices.
 - Analyzed model failures and proposed improvements to enhance performance and accuracy.
 - Collaborated with team members to troubleshoot issues and ensure timely project delivery.
 - Prepared documentation and presented technical progress updates to stakeholders.

PROJECTS

- **Rotten Fruits and Vegetable Classification** (Python, VGG16, Transfer Learning, Roboflow, Gradio)
 - Developed a fruit and vegetable freshness classification model using VGG16 transfer learning.
 - Trained on a Roboflow dataset (500–1000 images) with binary classification, achieving 80–85% accuracy.
 - Deployed using Gradio UI for real-time image upload and prediction.
- **SymptoTrack AI — Hybrid RAG Chatbot for Symptom Monitoring** (Python, LangChain, Groq, HuggingFace, ChromaDB)
 - Built a Flask-based RAG chatbot for symptom monitoring with PDF medical report ingestion and vector database retrieval.
 - Integrated Groq's Llama-3.3-70B with HuggingFace embeddings and Chroma DB to generate accurate, context-aware health responses.
 - Implemented conversation memory and user authentication to enable personalized, multi-turn health discussions.

EDUCATION

- **B.Tech (Computer Science and Engineering)** 2026 — CGPA: 9.25
Sri Venkateswara College of Engineering, Tirupati, JNTU Anantapur
- **Intermediate (M.P.C)** — Viswasai Junior College, Nellore 2022 — 87%
- **SSC (10th Board)** — Sri Netaji Pilot High School, Nellore 2020 — 98%

CERTIFICATIONS

- Crash Course on Python – Google (Coursera)
- Analyzing Data with Python – IBM
- Introduction to SQL – IBM
